

Master: Memory

Fraction	A number that contains a numerator and a denominator and that shows parts of a whole	Simplify	To reduce
Ratio	A comparison showing the relationship between 2 quantities	Rate	A ratio between 2 unlike quantities
Quantity	How much there is of something	Unit Rate	A ratio showing how many units there are of the first quantity when you have 1 unit of the second quantity
Equivalent	Equal		

Master: Can't Say It!

Master: I Have...Who Has?

I have: fraction.

Who has: equal?

I have: equivalent.

Who has: a comparison showing the relationship between 2 quantities?

I have: ratio.

Who has: how much there is of something?

I have: quantity.

Who has: a ratio between 2 unlike quantities?

I have: rate.

Who has: to reduce a fraction or ratio?

I have: simplify.

Who has: a ratio showing how many units there are of the first quantity when you have 1 unit of the second quantity?

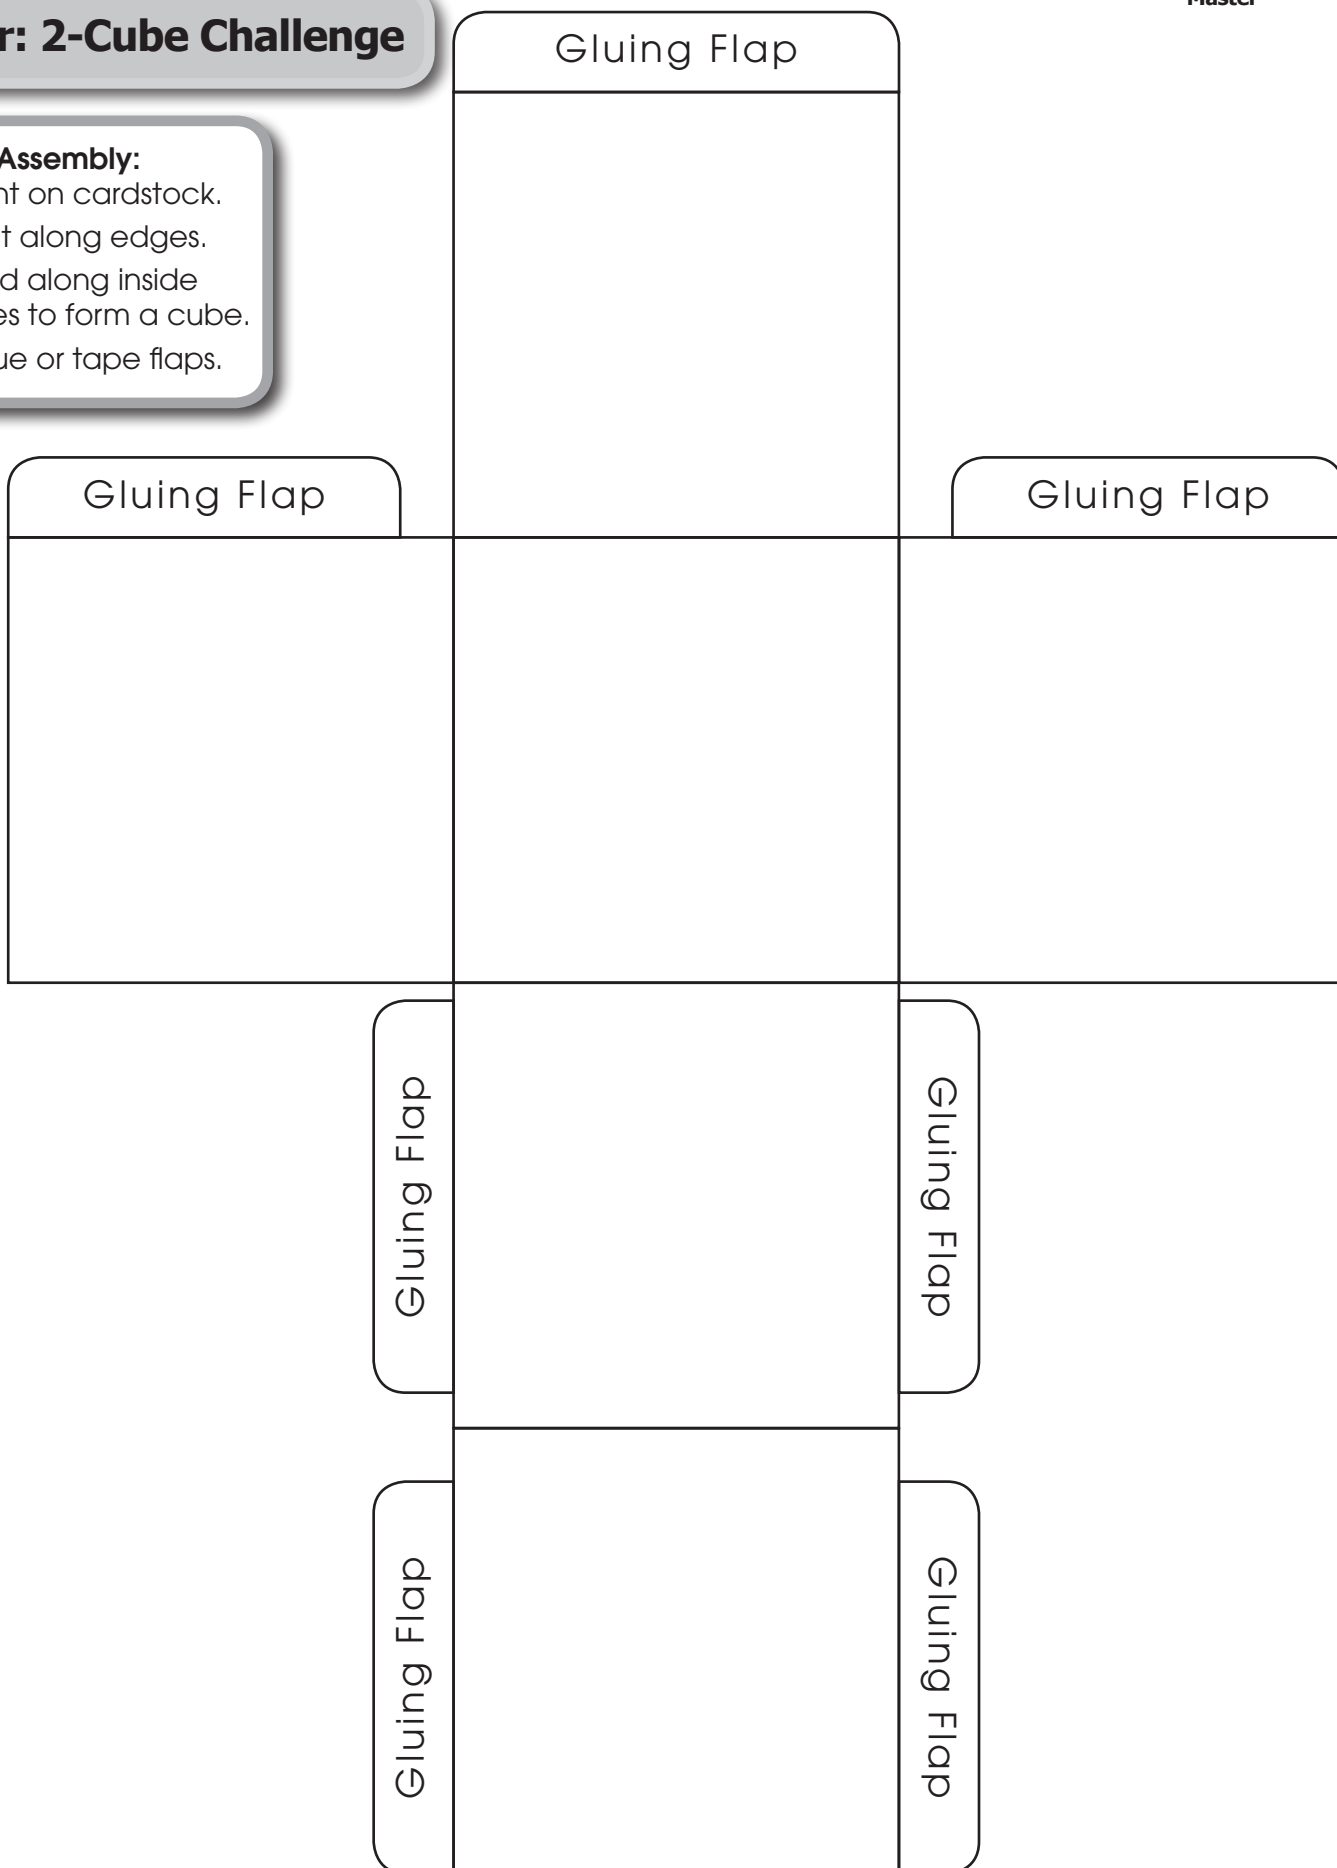

I have: unit rate.

Who has: a number that contains a numerator and a denominator and that shows parts of a whole?

Master: 2-Cube Challenge

Cube Assembly:

1. Print on cardstock.
2. Cut along edges.
3. Fold along inside lines to form a cube.
4. Glue or tape flaps.

are equal

Master: Around the World (cont.)

A comparison of
2 different units

An amount of
something

A number that shows a part-to-
whole relationship and contains
a numerator and a denominator

A comparison showing
the relationship between
2 or more quantities

A comparison of 2
different units where
the denominator is 1

To write a fraction in its
lowest terms
